### **Livingston sponsors Giffoni Film Festival 2006**

Livingston, Italy's number one leisure airline, offering both scheduled and charter flights and owned by the Ventaglio Group, is taking part in the 36th edition of the Giffoni International Children's Film Festival, which will be held at Giffoni Valle Piana from July 15 to 22, 2006. As a sponsor, Livingston has provided the organizers of the event with a number of free airline tickets for several destinations included in its long-haul network.

Livingston SpA's philosophy, which is perfectly expressed by its payoff – **ENERGY FLIGHT** –, logo and aircraft colours (tail and interiors), is an ideal match for the main theme of this year's Festival: **ENERGY**. The color orange stands for energy and vitality, while the orange in the place of the mascot's head is a symbol of vitamins and radiance. In addition, special attention to comfort on board (Wellness) and the safety of its young fleet, consisting of 3 Airbus A330-200s (289 seats in two classes) and 3 Airbus A321-200s (210 single-class) based at the Milan-Malpensa airport, have always been characteristic features of Livingston SpA. On board the Company's aircraft modernity and comfort combine to meet passenger needs in terms of punctuality, safety, recreation and relaxation.

Livingston SpA's scheduled and charter network offers direct all-year-round connections from Italy's principal airports, making it easy to reach some of the most important and popular holiday destinations: the Caribbean, Central and South America, the Indian Ocean, Africa, the Mediterranean and the Middle East.

Tickets for scheduled flights can be purchased at the best travel agencies, online at [www.lauda.it](http://www.lauda.it), via the call center by dialing 02/33472323 or by calling Freephone 8000 52832 (only from Italy).
